

Internship Opportunity at TEAL

About the Organisation

Terra Economics & Analytics Lab (TEAL), is an end-to-end decision support platform for land and property for banks, housing finance companies, real estate/infrastructure developers, retail investors and transacting parties. Our analytical tools and services utilize collated, organized and interpreted data from land records, property registrations, tax filings, court mandates, land-use regulations, master plans, cadastral surveys, infrastructure plans, municipal by-laws, building codes and planning requirements. We are a team of top engineers, researchers and lawyers committed to working on solving multiple problems associated with the state of land and property records.

About the job

At TEAL, we're looking for an Intern who would work closely with our legal team.

Responsibilities

1. Assisting in summarizing legal documents of various languages
2. Reviewing legal documents
3. Conducting Legal Research

Eligibility

We're looking for someone who:

1. Can work with confidential documents.
2. Pays attention to detail
3. Is able to think and work independently
4. Effectively manages the tasks allotted

5. Is proficient in Tamil, Telugu, Marathi or Gujarati. Ability to read and write any of the above languages (preferably any two languages) is a must.

Prior experience in real estate law and knowledge of basic property documentation is an added advantage.
